AMG Enters Distributor Agreement with Transmea

The agreement provides strategic platform for marketing AMG's transmission solutions for Security and Surveillance in designated overseas markets in Europe, Russia and Africa.

March 23 2009: AMG Systems Ltd. announces that they have entered a distributor agreement with Dutch based Transmea – a company specialised in the distribution of sophisticated security and surveillance products. Under the new agreement Transmea will sell a wide range of AMG's transmission solutions in market such as Europe, Eastern Europe, Russia, Scandinavia, the Baltic States, Balkan and a large number of African countries. Transmea will also provide first line technical and commercial support for Systems Integrators and Consultants in the chosen markets.

Sales Manager Mr. Richard van Bommel from Transmea says, "I am absolutely delighted we have been appointed distributors for AMG Systems. Not only are AMG's products cutting edge, they are also highly acclaimed. Outside of that, the company has always enjoyed a reputation for delivering products of very high quality. All of this fits completely with Transmea's product and support philosophy which strongly builds on commitment to quality from product development to customer service. We already have a number of meetings lined up for introducing AMG's technology and I am looking forward to a very fruitful partnership over the coming years".

Founder and MD of AMG Systems Dr. Alan Hayes says, "AMG has experienced significant market growth over the past couple of years and we have been seeing a steadily increased demand for solutions where our digital uncompressed transmission technology is required. We have been looking to expand our market presence in a number of interesting geographical market areas and Transmea is the perfect fit. With their existing network of partners and sub-distributors in the geographical regions covered by the agreement, Transmea already has great insight and inroads into these markets, and I am absolutely convinced that we will see an increase in projects where AMG's transmission solutions are applicable".

The distribution agreement covers AMG's acclaimed Guardian-Lite™ product range, Vision 5000™ and Vision 2000™ product series as well as various AMG accessories such as racks and power supplies.

About Transmea

Based in Lelystad in The Netherlands, Transmea is both a manufacturer and international distributor. A team of engineers, software programmers, former law enforcement/military personnel, and highly skilled PC and network technicians create products based on customer demand and industry need. Transmea's philosophy and commitments are: Offering the best prices on products in the industry. Providing the highest in video and equipment quality. Continually expanding product lines to reflect the latest in video technology. Routinely inspecting manufacturing facilities in keeping with our production standards. Strong partnerships, quality products, and dedicated service mark the Transmea difference. For more information visit www.transmea.nl
